

Nork with Burgh Heath: September / October 2020 - Schedule of events - in Church and on Zoom/ Youtube

The following overview shows the 'In church' and 'On Zoom' events for the parish for September and October. Many other events are also happening, but these are the ones which are either open to all or particularly important for everyone to know about.

All events in the churches are depending on the 'R rate' continuing to remain at an appropriate level and the Government continuing to deem it safe for us to meet and are by booking only.

In addition to this we will continue to keep in touch - pastorally, and with worship options, for those who are not at the moment able or confident to go to church.

It is hoped that we will be able to begin to Zoom & record the services from the churches from some point in September - and therefore recordings will move to being sent out after the Sunday morning, rather than in advance of it. I will write and explain when we are ready for this.

We are hoping to run another Zoom Alpha, but I would like to get the term underway before deciding the best dates & timings for it to proceed.

As always, any questions about any of the contents of this overview of events, please do email or ring.

With love & prayers,

Alex
