

My name is Stacey and I work for Age UK Sutton as the Community Engagement Assistant.

I am writing to you to share with you news of our activities survey that we are running.

We are conducting research to find out about older people's experience of activities in the Borough of Sutton. To be able to reach the community in these current times, we have created a survey to capture responses.

The goal is to find out what activities they enjoy, and what they would like to see offered. We are also interested to hear about what would help them to do what they want, and what could stop them from being able to enjoy activities that they would like to take part in.

I would be really grateful if you could promote this survey to members of your community who are over the age of 50.

If you are able to include this in your newsletters, social media and wherever you share information, please let me know and I can share a poster to help promote the survey.

We are offering a variety of ways for people to take part, so we can reach as many people as possible.

Online by visiting our website

[//www.ageuk.org.uk/sutton/get-involved/age-friendly-sutton/activities-survey](http://www.ageuk.org.uk/sutton/get-involved/age-friendly-sutton/activities-survey)

By telephone, where a member of the team will call and go through the survey over the phone.

By post we have several paper copies that we can send out to those who would like one. These will be sent with a return envelope with postage covered.

Your interest and participation in our research would be highly valued as by carrying out this research will enable us to review our own offer of activities, along with how we can make it easier for people to access all the activities that are on offer within the Borough.

I would appreciate it if you could please reply at your earliest convenience confirming your interest.

Thank you and I look forward to hearing from you.

Kind regards,

Stacey Sabido

Community Engagement Assistant
